

Dear Customer / Distributor,

We would like to introduce you to a software conversion service being offered by EXOR.

If interested, it will start with a short survey/questionnaire to qualify customer needs and further assist with the migration process.

Below, you will find a link to the survey. Please click the link and fill out all the necessary information.

<https://forms.gle/6pjDU6qge93t1t5a9>

Once qualified, the conversion process will start with a nominal evaluation fee of \$150.00 to assess scope of your project, time it would take for conversion from Designer to JMobile and provide a quote with complete terms and conditions.

If quote is accepted and PO sent, we will credit the \$150.00 evaluation fee towards your PO.

Please let us know any additional questions you may have.

Thank you,
EXOR America Team
